b. On 10 September, three representatives of the Information Systems Security Group (ISSG) met with COMSEC to discuss TEMPEST field tests at a West Coast contractor site. Some problems discovered there affected present and planned operations. Because of the difficulties and the impact on the operation, the Chief, COMSEC, visited the site on 14 September with the ISSG [Redacted] representative. A solution was reached involving establishing a new zone of control for the present equipment and selecting different TEMPEST-approved equipment for the new site. (C)
